Summary

A dedicated student with a strong interest in software development, cybersecurity, and artificial intelligence. Possesses intermediate knowledge in multiple programming languages and a solid foundation in object-oriented programming, design patterns, and UML modeling. Enthusiastic about machine learning, problem-solving, circuit theory, and continuous learning in both software and hardware domains.

Skills

- **Programming Languages:** Java, C, C#, C++, Python, HTML, CSS, JavaScript
- **Software Development:** Object-Oriented Programming (OOP), Design Patterns, UML Modeling, Algorithms & Data Structures
- **Cybersecurity:** Network Security, Risk Management, Threat Analysis
- **Artificial Intelligence & Machine Learning:** Basic ML Concepts, Data Analysis, Algorithm Development
- **Mathematics & Circuit Theory:** Calculus, Differential Equations, Probability & Statistics, Breadboard Circuit Testing

Education

KTO Karatay University, *Bachelor's Degree in Computer Engineering* Sept 2022

- **Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Circuit Theory, Calculus, Differential Equations, Probability & Statistics, Digital Systems, Blockchain Technologies & Algorithms

Courses

Introduction to AI and Machine Learning on Google Cloud Nov 2024

Learned the fundamentals of artificial intelligence and machine learning using Google Cloud, including key concepts, tools, and techniques for building AI models and deploying them in cloud environments.

Google Cybersecurity Sep 2024

Covered essential cybersecurity principles, including threat detection, risk management, and network security. Developed practical skills in security analysis and incident response.

Projects

To-Do List Application

- Developed a simple task management application with CRUD operations, utilizing object-oriented programming principles.
- Tools Used: Java, OOP, Data Structures

Library Management System

- Designed and implemented a system to manage book loans, returns, and user accounts, using SQL for database operations.
- Tools Used: Java, SQL, Database Management

Technologies

Languages: Java, C, C++, C#, Python, SQL, HTML, CSS, JavaScript

Technologies: Git, GitHub, VS Code, Eclipse, Code::Blocks, Android Studio, Windows, Linux
